

## CURRICULUM VITAE

NICHOLAS JOHN HARRIS FRCS (Tr and Orth)  
Consultant Orthopaedic Surgeon &  
Senior Clinical Lecturer  
Leeds

## SUMMARY

I have been a Consultant Orthopaedic and Trauma Surgeon and Senior Clinical Lecturer at the Leeds Teaching Hospitals NHS Trust since August 2001. My areas of interest are Foot & Ankle Surgery, Knee Surgery, General Lower Limb Surgery as well as Trauma. I have produced over 100 original publications and presentations and am the author of a textbook on Orthopaedic Examination.

I am subspecialty trained in Foot & Ankle Surgery and am member of BOFAS.

In my current position approximately 80%-90% of my elective practice is Foot & Ankle. A significant proportion of this is tertiary referral. I am a member of the Biomet Total Ankle Replacement Faculty. I am the Orthopaedic Lead Designer of the Rebalance Total Ankle Replacement. I act as a reviewer for the British Journal of Bone and Joint Surgery. I have been a convenor of the Foot and Ankle Masterclass run in conjunction with the Royal College of Surgeons. I have also taught on the British Society of Rheumatology Foot and Ankle Course and Rheumatology Module at the University of Leeds (HECS 3064). I am on the UK and Global Ankle Arthroscopy Faculty with Smith and Nephew.

I also have an interest in knee surgery and was awarded the Aesculap Travelling Fellowship to visit Dr DuPlessis in South Africa. Dr DuPlessis is an internationally renowned knee surgeon and looks after the Springboks Rugby Team. I was awarded the BOTA Trainee of the Year Prize for research into pain relief following ACL reconstruction. I am a member of BASK.

3. Intramedullary nailing over a 1 year period at RGH

Harris N J,Hossain K.

Presented at the Orthopaedic Audit meeting June 1995

4. Audit of MRI usage over a 6 month period by the Orthopaedic Departments in Sheffield.

Presented at the Orthopaedic Audit meeting October 1994.

5. DVT prophylaxis in a 120 patients on a Plastic Surgical Ward following the institution of a Thromboprophylactic Protocol. January 1993.

Presented at the Plastic Surgical Audit Meeting April 1993.

I have been involved in regular monthly audit throughout my training and as a Consultant. This includes mortality & morbidity audits aswell as prospective and retrospective audit projects. Specific projects that I have been involved in and presented have highlighted problems of implementing DVT prophylaxis protocols, problems of coding and inappropriate waiting times for MRI scans. Some audit projects however have highlighted good practice. An audit of MRI findings in knee pathology in Rotherham revealed sensitivities and specificities similar to those in the published literature. I have tried to keep up to date with many of the changes affecting the NHS. In 1999 I was elected to the BOTA Executive Committee which gave me greater insight into how these changes were going to affect Orthopaedic Trainees and Orthopaedics in general

#### MEDICO-LEGAL EXPERIENCE:

I prepare approximately 100 personal injury reports per year. I strongly believe in my role as an independent advisor to the court and give honest opinions which are supported in most cases by the current literature.

A recent audit of my reports suggested 80% were regarded as good and 80% of instructing parties were pleased with the turn-around time.

I strive to remain up to date and have attended courses run by Bond Solon and the Royal Society of Medicine on both Report Writing and Courtroom Skills.

I also undertake medical negligence work dealing in particular with issues relating to foot and ankle surgery.
